The Bermudians

The following is taken from a Norfolk paper published early in the present century:

The last cyclone was one of the most severe on record. It destroyed many villages in Jamaica, and desolated whole parishes in Bermuda. We cannot help feeling for the Bermudians for they are our near kindred. Bermuda Street, in our city, was settled by emigrants from those islands, who fled from the tyranny of one of the Governors. These men were oppressed in their island home and determined to be free. They were not permitted by the tyrant to leave; but they found a vessel on the coral reefs, that has been wrecked there

and abandoned. They passed the creek up as best they could, and were compelled to do this by stealth at night. In the darkness they got aboard their little craft, crowded down with passengers. The schooner started, rigged with a jurymast made of a spar, and furnished with a sail made of the bedclothing of the refugees; the rudder was simply a wide board shaped like a paddle, lashed to the stern, and they had no compass. They steered for the broad Continent, and luckily made the capes of Va. They entered the wide Eliz., ran up the river, and cute what is now Newton's creek. They ran their lucky craft ashore back of Captain Cornitz garden, in a place that in our youth was still called Tucketown, after one of the great Bermuda families, a member of which settled on that spot.

The rest of the refugees settled along the creek on what is now Bermuda Street. On it were built

the dwellings of the Tucker, the Cornicks, the Steels, the Jeffreys, the De Butts, the Irvin', the Archers, the Prodys, the Robinsons, the Ramsays, and several other of our old families. Many of these names still exist in our city, in Portsmouth, and in the neighboring counties.

[Hence the name, St George, was constantly borne in the Tucker family.]

the Tuckers came from this Daniel of New
